

Godsheritage Adeoye

FULL STACK DEVELOPER

PROFILE

My name is Godsheritage, I am a highly motivated Full-stack Developer with experience providing high-impact web solutions for diverse industry organizations. I am Skilled in designing, developing, and testing multiple web-based applications incorporating a range of technologies

WORK EXPERIENCE

Full Stack Engineer

FEMTECH IT SOLUTIONS

I am currently working remotely as a full-stack engineer at femtech IT Consultants.

- * Developed websites from front to back using React, Node JS, express JS and Mongo db. .
- * Integrated the web app with backend services to create new user onboarding application with dynamic form content.
- * Developed highly reactive and customized UIs using React and Angular JS to improve functionality of web applications
- * Trained over 20 junior developers in internal web functions, including steps on how to independently make minor updates and changes to the codebase

Portfolio Website

MERN Application

- * Developed Front End experience using React JS, Bootstrap and Redux, And SASS
- * Built Application with React while managing state through Asynchronous Redux actions using Redux Thunk
- * Implemented the React Router DOM to allow nested routing within application components

NASA-Space APP

MERN Application

- * Developed Front End experience using React JS, Sass, and Bootstrap
 - * Developed back end with the MERN stack
 - * made use of NASA exploration data to generate a list of habitable planets
 - * Implemented the React Router DOM to allow nested routing within application components
- View: <https://nasa-space-application.herokuapp.com/>

Github Finder

React Application

- * Developed Front End experience using React JS, and used reducers for state management
 - * integrated Github REST API to search for user profiles based on their Github Username
 - * Implemented the React Router DOM to allow nested routing within application components
 - * integrated tailwind CSS and daisy UI for better styling of application components
- View: <https://github-finder-b7x80zhfb-godsheritage.vercel.app/>

EDUCATION

BSC Computer Science

Morgan State University

React front to Back

GOOGLE STUDENT DEVELOPERS CLUB
