EXPERIENCE

Femtech IT — *Front End Engineer*
MAY 2020 - JANUARY 2022

Designed and maintained the corporate websites using scripting languages and content management systems including WordPress and Joomla.

Created and oversaw wireframes and mockup designs from the client's requests.

Developed highly reactive and customized UIs using React JS and Typescript to improve the functionality of web applications.

Femtech IT — *Full-Stack Engineer*
JANUARY 2022 -PRESSENT

Developed corporate websites from front to back using the MERN Stack.

Trained over 20 junior developers in internal web functions, including steps on how to independently make minor updates and changes to the codebase.

Worked with Amazon Web services to integrate the client and server-side code of corporate websites.

PROJECTS

NASA Space App — *MERN APP*

Utilized React JS to develop UI components that can be reused across the whole application.

Employed Node JS and Express framework to build server-side logic, and applied middlewares to handle HTTP requests.

Adopted MongoDB for data storage, designed different schemas and data access services to communicate with Mongo DB.

ENVIROMENT : MERN Stack, TypeScript, bootstrap, and SASS.

Github Profile Finder — *REACT SPA*

Developed an application to allow developers to search for their Github Accounts.

Utilized the Github Rest API to allow for user search within the application.

Implemented the React Router DOM to allow nested routing within application components.

ENVIROMENT : React JS, TypeScript, Redux, Daisy UI, Tailwind CSS.

EDUCATION

Morgan State University

Bachelors of science in Computer Science

Google Developer Student Clubs (GDSC)

Coding Bootcamp

SKILLS

JSON, REST API, Graph QL, Docker, Redux, Cloud & AWS, Adobe Suite, Git, Wordpress, Heroku, Firebase, Postman, AJAX, Webpack, NPM, SEO

PROGRAMMING LANGUAGES

HTML
CSS
JavaScript

LIBRARIES AND FRAMEWORKS

Mongo DB, Express JS, React JS, Node JS, Typescript, SASS, Bootstrap
